

3rd International Workshop on Linked Data and Distributed Ledgers Chairs' Welcome

It is our great pleasure to welcome you to the *WWW 2018 3rd International Workshop on Linked Data and Distributed Ledgers (LD-DL)*. We envision the workshop as a forum for researchers and practitioners from Distributed Ledgers and Linked Data to come together to discuss common challenges; propose solutions to shortcomings of existing architectures; and identify synergies for joint initiatives. The ultimate goal is the creation of a *Web of Interoperable Ledgers*.

We received 6 submissions from all around the world. We evaluated them regarding relevance, quality, and novelty, selecting 3 short papers and 1 long paper (66% acceptance rate)

- ScienceMiles - Digital currency for researchers
- Can Blockchains and Linked Data Advance Taxation?
- A distributed database with explicit semantics and chained RDF graphs
- When trust saves energy: A Reference Framework for Proof of Trust (PoT) Blockchains

We hope that you will find the tutorial program interesting, providing you with a valuable opportunity to learn and share ideas with other researchers and practitioners from institutions around the world.

Workshop Chair

The Open University

Pascal Molli

Workshop Chair

University of Nantes

3rd International Workshop on Linked Data and Distributed Ledgers Organization

Workshop Chairs: Luis-Daniel Ibáñez (ECS - University of Southampton, UK)
John Domingue (KMI – The Open University, UK)
Pascal Molli (LS2N – Université de Nantes, France)

Program Committee: Long Cheng (TU Eindhoven)
Roberto García-González (Universitat de Lleida)
Johannes Pfeffer (Consensys)
Reza Samavi (McMaster University)
Andrew Sutton (McMaster University)
Hoang Tam Vo (IBM Research, Australia)
Allan Third (The Open University)
Ruben Verborgh (Ghent University – Imec)
